Pioneer of PRC Composite Real Estate

Entered RMB100 billion contracted sales circle

Top-notch Player of GBA Urban Redevelopment

> From Quality Living to Joyful & Healthy Lifestyle

> > Sustainable and high-quality development

Founded in 1996, Aoyuan first introduced the "Sports + Property" development concept partnering with China Sports under General Administration of Sport of China and successfully developed the first sports-themed community in China, namely Guangzhou Olympic Garden, inheriting the Olympic spirit of "Higher, Faster, Stronger — Together"

Benefiting from its nationwide layout, Aoyuan has captured shifting growth opportunities in the industry and achieved a breakthrough. Aoyuan has grown from a regional developer to a national developer, entering the hundred-billion-yuan contracted sales circle and ranking among Top 30 PRC Developers

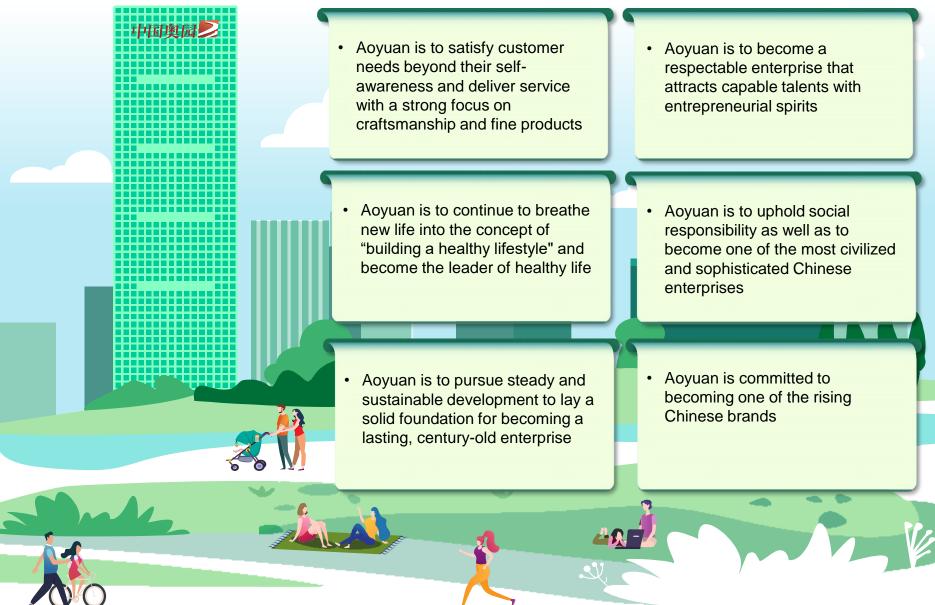

Through a prospective layout approach, Aoyuan has achieved full coverage of "Three Olds" urban redevelopment, namely old towns, old villages and old factories, establishing the "Aoyuan Urban Redevelopment Model" with composite industry development. Aoyuan is ranked among Top 10 PRC developers in urban redevelopment and is known as a top-notch player of urban redevelopment in GBA

On the back of deepening its strategy of "one core business with vertical development", Aoyuan continues to extend the application of its brand concept of "building a healthy lifestyle" through promoting two-way empowerment and synergy between Quality Living segment (core property business) and Joyful & Healthy Lifestyle segment (non-property business), giving full play to the Company's comprehensive competitiveness

Aoyuan has been included as a constituent stock in MSCI China Index, Hang Seng Composite LargeCap & MidCap (Investable) Index, Hang Seng Stock Connect, Hang Seng Stock Connect Greater Bay Area Composite Index, Hang Seng High Dividend Yield Index and Hang Seng China High Dividend Yield Index. It ranks among "Fortune China 500" for five consecutive years (170th in 2021), "Forbes Asia's Fab 50" and "Forbes Global 2000" (849th in 2021). Aoyuan is committed to achieving sustainable and high-guality development

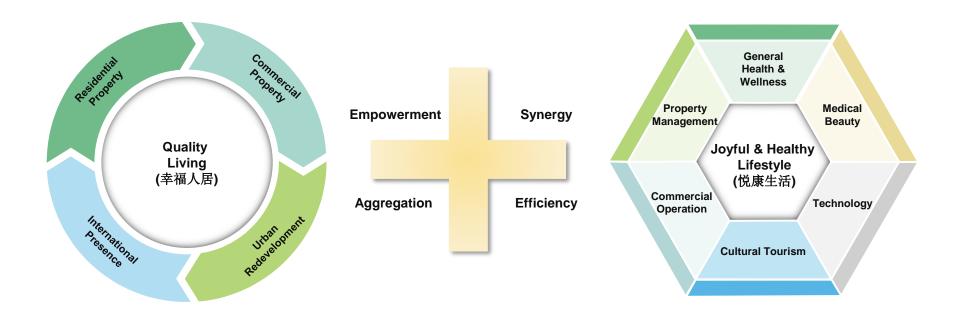

Aoyuan celebrates 25th anniversary with unwavering aspirations

From building a house to a way of life with "dual engines"

From Quality Living to Joyful & Healthy Lifestyle, Aoyuan has continuously deepened its strategy of "one core business with vertical development" and has been extending the application of its brand concept of "building a healthy lifestyle" Through synergistical development of the two segments, Aoyuan will leverage its comprehensive competitiveness to achieve high-quality development

- Core property business has attained organizational optimization and advantages integration through resources consolidation, which strengthened the headquarters' direct control of regional subsidiaries, reinforcing high-quality development
- Yuekang Holdings has been established to comprehensively coordinate the non-property business segment entailing property management, commercial operation, cultural tourism, beauty & health, etc., empowering the core property business
- From building a house to a way of life: Aoyuan builds a coherent, full-fledged ecosystem which connects consumer groups of different product types and businesses, and provides a full range of services through a single platform

Cultural tourism empowers core property business – Yingde Aoyuan Xinhua Town

Leveraging its composite real estate model. Aoyuan creates a comprehensive model of "cultural tourism+industry+residence" to diversify sources of revenue With total site area of 700,000 sqm, Yingde Aoyuan Xinhua Town integrates theme park, science education, vacation resort, and ecological residence Aoyuan Yingde Chocolate Kingdom, the largest exhibition on chocolate culture in Asia, is set to become a new benchmark of cultural tourism in GBA

- Yingde is well recognized as "Little Guilin in Guangdong" and "Hometown of Black Tea in China", with outstanding karst geomorphology and a long history of tea culture
- Aoyuan Yingde Chocolate Kingdom opened at end-Dec 2020, and is a vacation resort with comprehensive business model integrating chocolate IP, Yingde black tea culture, and branded hotels
- Directed by Mr. Mei Shuaiyuan, pioneer of open-air theatre with natural backdrop in China. "The Queen's Party" is the first on-site panoramic immersive musical in China. Premiered in Feb 2021, it is set against the entire Tea and Chocolate Town of the Kingdom, taking audience on a journey of discovery of Chinese Yingde black tea culture and Western chocolate culture while actors and audience can interact directly

Cross-industry collaboration empowers core property business – "Aoyuan Beauty Valley" & "Aoyuan Smart Valley"

Amid industrial transformation and new urbanization, Aoyuan leverages cross-industry consolidation capabilities to develop industrial space and auxiliary facilities meeting urban development needs and build a quality business partners network. Aoyuan has formed the industry models of Shanghai Aoyuan Beauty Valley and Aoyuan GBA Smart Valley, expanding urban redevelopment and coverage in key tier 1&2 cities, thereby empowering its core property business

- Shanghai Aoyuan Beauty Valley is located in Fengxian Park of Shanghai Lingang Free Trade Zone
- With a total GFA of about 200,000 sqm, it features a mixed-use development model featuring R&D office, light production, commercial supporting facilities, apartments for talents, etc.
- Introduces international medical beauty brands to create a platform for transformation and exchange of international medical beauty scientific achievements; awarded "Chinese Cosmetics Brand Innovation Lab"

- Aoyuan GBA Smart Valley is located in Guangzhou Nansha Free Trade Zone
- With a total GFA of over 300,000 sqm, it is positioned as "AI + Emerging Industries", integrating office, industrial properties, commercial and community facilities, etc.
- Introducing hi-tech companies with high-growth, establishes a system with industrial auxiliaries and value-added services and provides operational support; have signed intent agreement with over 10 high-tech companies

2H2021 Strategies and plans

Aoyuan is committed to becoming a sustainable and lasting enterprise

China maintains the long-term mechanism of "housing is for living, not for speculation" in the real estate industry.

Property developers are changing their development model from scaling up to quality growth

With a focus on urban agglomerations e.g. Greater Bay Area and Yangtze River Delta, Aoyuan actively expands urban redevelopment and centres on higher-tier cities.

Committed to regional cultivation, Aoyuan supports city subsidiaries to achieve RMB10bn of sales or above

Comprehensive integration of the property business brings about flat management & control,

while implementation and enhancement of integrated operations system facilitates delicacy management, unleashing the benefits of effective management

Stable growth

- Continue regional cultivation and develop the subsidiaries in core cities to achieve RMB10bn sales each
- Focus on highertier cities, enhance urban redevelopment projects, and accelerate conversion
- Strengthen risk control; ensure cash flow safety
- Uphold "one core business with vertical development" and vertically extend industry chain surrounding core property business

Increase

efficiency

Improved sales & marketing

- Improve sales & marketing, enhance the sell-through rate of newly launched projects, accelerate inventory destocking
 Cash collection to be a key indicator in performance appraisal and accelerate the
- cash collection and recognition of profits • Strengthen
- operating cash flow and reduce leverage in an orderly manner; fulfill "three red lines" at the earliest time

Accelerate

cash collection

Client-focused

- Elevate management level of the customer service department and improve customer satisfaction
- Establish a fullcycle management system for customer service and strengthen service quality in sales, project delivery, property management, complaint handling, etc.
- Establish brand differentiation of Aoyuan's service and enhance customer experience and satisfaction

brand

Refined products

- Implement Aoyuan's A+ product strategy and promote comprehensive product upgrades
- Set up a lean system of design & management, with equal emphasis on standardized design and R&D innovation, and further enhance quality control
- Build a series of signature projects and improve product competitiveness and brand influence to increase product premium

Improve

Enhanced operations

- Implement flat management, and give full play to overall efficiency
- Facilitate and strengthen the integrated operations management to enhance delicacy operations
- Optimize KPIs and performancebased incentive mechanism to improve team quality and stability
- Comprehensively improve product and service quality and increase operating profit

Enrich

profit

Cost control

- Enhance project standardization and proportion of centralized procurement to optimize construction costs
- Improve management delicacy and lower selling, general and administrative cost
- Ensure efficient use of capital and reduce finance cost
- Reduce taxation expenses with appropriate tax planning

Lower

Greater focus on the balance of scale and profitability to achieve sustainable, high-quality and comprehensive development

2. Results & Financial Overview

Balance sheet highlights

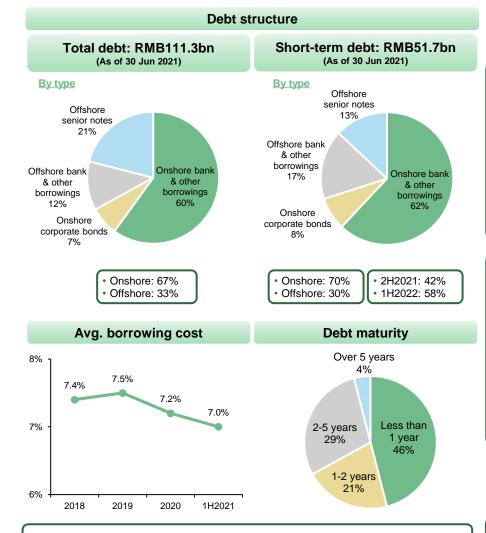

(RMB '000)	As of 30 Jun 2021	As of 31 Dec 2020	As of 30 Jun 2020
Total cash ⁽¹⁾	68,322,791	70,025,660	68,684,174
Total assets	316,154,630	325,678,456	298,587,136
Total liabilities ⁽²⁾	262,863,651	271,425,810	256,493,176
Total debt ⁽³⁾	111,311,138	114,872,984	103,047,755
Net debt ⁽⁴⁾	42,988,347	44,847,324	34,363,581
Total equity	53,290,979	54,252,646	42,093,960

Note:

- (1) Total cash = Bank balances and cash + Restricted bank deposits, unrestricted cash accounted for 89% As of 30 Jun 2021, credit facilities amounted to approx. RMB242.6bn, of which approx. RMB128.3bn were unutilized
- (2) As of 30 Jun 2021, total liabilities mainly include contract liabilities of RMB63.4bn and total debt of RMB111.3bn
- (3) Total debt includes interest-bearing debts such as onshore & offshore bank and other borrowings, onshore corporate bonds and offshore senior notes etc. (Please refer to page 14 for more details)
- (4) Net debt = Total debt Total cash

Debt profile and capital management

- ✓ As of 30 Jun 2021, total cash amounted to approx. RMB68.3bn, covering 1.3 times of short-term debt of approx. RMB51.7bn
- ✓ As of end-Jul 2021, short-term debt of approx. RMB2.5bn were repaid and rolled over, alleviating short-term debt pressure with short-term debt ratio lowered to 44%

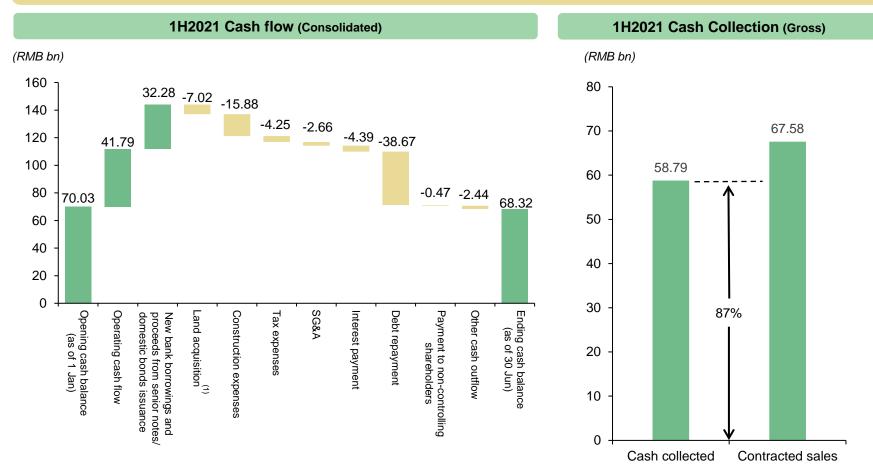

Arranges refinancing in advance Prudent capital management

- ✓ In Jan 2021, issued US\$188mn 4.2% senior notes at par through exchange offer and new issuance, further setting record-low borrowing cost among Aoyuan's issuances
- ✓ In Feb 2021, issued US\$350mn 5.88% 6-year offshore senior notes, the longest bond maturity ever issued by Aoyuan
- ✓ In Jun 2021, issued US\$200mn 7.95% senior notes due 2024, fully utilizing the US\$550mn offshore bond quota obtained from the NDRC
- ✓ In Jul 2021, issued RMB1.82bn 4-year domestic corporate bond with a coupon rate of 6.8%
- ✓ In Mar and May 2021, secured two tranches of 3-year offshore syndicated loans of over HK\$2.1bn in total, at an interest rate of HIBOR/LIBOR+4.30% per annum with 12 commercial banks namely Bank of China (Hong Kong), Bank of East Asia, Barclays Bank, China Construction Bank (Asia), China Minsheng Bank Hong Kong Branch, Chong Hing Bank, CMB Wing Lung Bank, Deutsche Bank, Hang Seng Bank, Nanyang Commercial Bank, Standard Chartered Bank (Hong Kong) and Tai Fung Bank (in alphabetical order)
- ✓ Secured offshore bilateral loans of approx. HK\$1bn in total from Nanyang Commercial Bank, Chiyu Banking Corporation, China CITIC Bank (International), and OCBC Bank in Singapore

Values corporate credibility Completes redemption of all public offshore senior notes due 2021

- ✓ Redeemed US\$188mn offshore senior notes due Feb 2021 on time
- ✓ In Mar 2021, redeemed US\$500mn and S\$100mn offshore senior notes due Sep 2021 in advance
- ✓ Redeemed US\$425mn offshore senior notes due May 2021 on time

Adhering to prudent financial management, Aoyuan recycles capital through rapid presales, achieving significantly improved operating cash flow while ensuring healthy cash flow

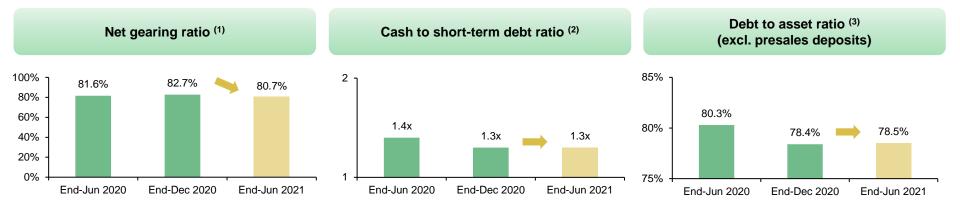

Note (1): As of 30 Jun 2021, the outstanding land premium was approx. RMB6.43bn which is expected to be fully paid within a year

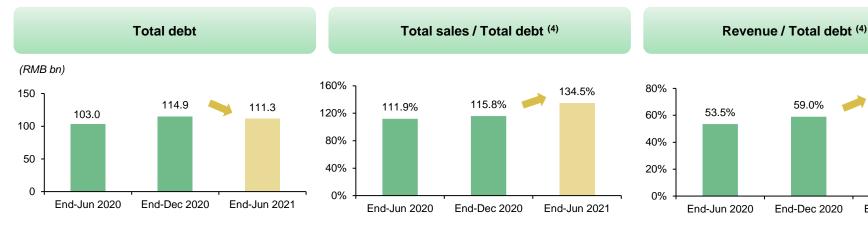

Interim progress of credit metrics enhancement

64.7%

End-Jun 2021

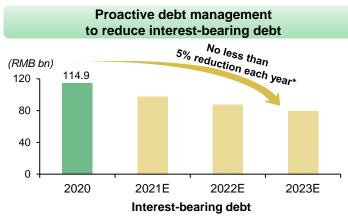

Note:

- (1) Net gearing ratio = Net debt / Total equity
- (2) Cash to short-term debt ratio = Total cash / Short-term debt
- (3) Debt to asset ratio = Total Liabilities / Total Assets (excl. presales deposits)
- (4) Annualized treatment based on data over the past 12 months

Strategies for fulfilling "three red lines"

Through accelerating cash collection, balanced investment pace, cost reduction, and faster delivery to achieve positive operating cash flow in next three years, reducing liabilities and increasing net assets

*By end-2021, interest-bearing debt is expected to decrease by 10% to 15% y-o-y

✓ Actively reduce inventory and improve sellthrough rate of new launches for steady increase in net operating cash inflow and net assets

✓ Accelerates cash collection and settlement of account receivables; cash collection to be a key indicator in performance appraisal

Cost reduction ✓ Optimize orga lower SG&A exhibited man ✓ Strengthen ca improve capit

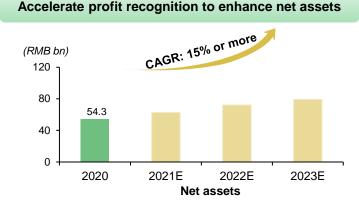

Accelerate

cash

collection

✓ Optimize organizational operations and lower SG&A costs, productivity per capita exhibited marked improvement

✓ Strengthen capital management and improve capital utilization to ensure continuous reduction of interest-bearing debt and finance costs

- ✓ Prudent land acquisition with sales-based investment, annual budget is capped within 20% of contracted sales of the year
- Enhance project standardization and centralized procurement with dynamic adjustment of development pace for optimization and flexible control of construction costs

Balanced

pace

✓ Net assets to achieve CAGR of 15% or more in 2020-2023; project delivery is to pick up pace to increase profit

✓ Steadily increase investment properties and other asset types to continuously increase diversified income and to provide stable cash flow

Full upgrade of Aoyuan A+ product competitiveness

۳E

In 2019, Aoyuan introduced a product team from a leading property developer and built Aoyuan A+ Product Universe which emphasizes both standardization and R&D innovation. Developed 3 major high-end product suites (Residence Class, Yunfeng, ONE) leading to increasing ASP. Full upgrade in product competitiveness recognized with onshore and offshore industry awards

Elevate product adaptability through both standardization and innovation

Focusing on customer needs and experience,

a dual standardization system has been established to accommodate nationwide and regional-specific needs.

Meanwhile, R&D innovation through building non-standardized projects

facilitates the constant upgrade of the standardization system, thereby enhancing product competitiveness and premium

Nationwide layout with continued cultivation in key regions

۳Ē

Through three steps of "Layout – Focus – Cultivation", Aoyuan completed a nationwide layout and has grown from a regional property developer to a developer with a nationwide presence In 2021, Aoyuan will further optimize its geographic layout, concentrating resources to groom core city subsidiaries achieving RMB10bn sales or above, forming a "major + satellite city" layout

- Entering Cultivation 3.0 stage, Aoyuan streamlines its structure and establishes appropriate regional scale to enhance operational efficiency
- ✓ With appropriate scale for each region, Aoyuan provides a platform for capable talents to perform which helps retaining them, engendering a win-win situation for the Company and its talents. Meanwhile, Aoyuan presses on with regional cultivation, allowing it to exert greater influence and attract more peers for collaboration

Post-hundred

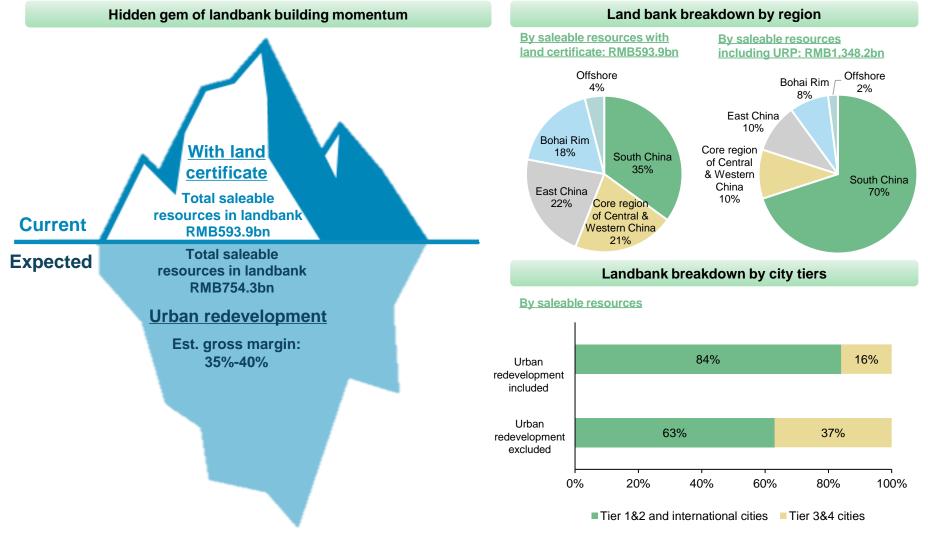

Billion Era

• Complete the strategic framework of four major regions, laying a solid foundation for future growth

• Develop 15 regional/city-level subsidiaries, each with annual contracted sales of RMB3bn or above

Optimizing landbank structure focusing on tier 1&2 cities

With a niche focus on the Greater Bay Area and strategic priority over tier 1&2 cities, Aoyuan has a strategic layout in South China, core region of Central & Western China, East China and Bohai Rim As of 30 Jun 2021, Aoyuan's projects spanned 95 onshore and offshore cities with total GFA of approx. 53.58mn sqm (attributable: 67%) and total saleable resources of approx. RMB593.9bn. Total saleable resources including urban redevelopment projects amounted to RMB1,348.2bn, which is sufficient for the development needs in the next 4-5 years

Optimizing landbank structure focusing on tier 1&2 cities (cont.)

Focus resources on tier 1&2 and core tier 3 cities, groom core city subsidiaries with RMB10bn sales or above, and form a "major+ satellite city" layout to cultivate metropolitan areas

In 2020, Aoyuan moved ahead of the curve to enhance landbank and accelerated conversion of urban redevelopment with city tiers of landbank improved further.

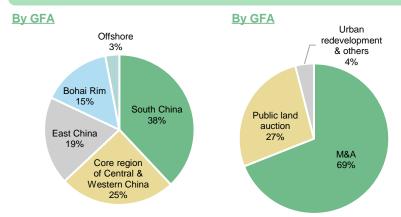

In 2021, Aoyuan will maintain prudent landbank replenishment while leveraging its traditional strengths in M&A, urban redevelopment, etc., ensuring reasonable land cost and underpinning sustainable development

Region	Province/ City	Avg. land cost (RMB/sqm)	Total GFA (000's sqm)	Attributable GFA (000's sqm)	Attributable land cost (RMB mn)	Interest (%)
Greater Bay Area	Guangzhou, Zhuhai	8,190	674	366	3,308	54%
East China	Xuzhou, Jiangsu	2,054	150	80	163	53%
Bohai Rim	Tianjin	3,120	247	247	771	100%
	Grand total	6,161	1,071	693	4,242	65%

- 2021 sees the official implementation of "three red lines" and launch of centralized land auction. Aoyuan will maintain prudent landbank replenishment with annual budget capped at 20% of the contracted sales of the year
- In 1H2021, Aoyuan replenished landbank with newly added GFA of approx.
 1.07mn sqm (attributable: 65%), attributable land cost was approx. RMB4.2bn with newly added saleable resources of over RMB17.8bn
- Aoyuan seized market window to proactively replenish landbank in 2020 with attributable land cost of RMB45bn. Newly added saleable resources amounted to RMB242.6bn, 70% of which were located in tier 1&2 cities
- Accelerating conversion of urban redevelopment with converted saleable resources of approx. RMB40bn in 2020 and approx. RMB13.5bn in 1H2021 respectively; whereas saleable resources to be converted in 2021-2024 are expected to reach RMB242bn, enriching its landbank
- Aoyuan will continue to exercise strategic landbank replenishment balancing both landbank considerations and financial metrics, and to leverage its traditional strengths in M&A, urban redevelopment, etc.

Landbank acquired since IPO — regional distribution and acquisition channels

4. A Top-notch Player of GBA Urban Redevelopment

A CONTRACTOR OF THE OWNER OWNER OF THE OWNER OF THE OWNER OWNE

Guangzhou Aoyuan Wangyue City Huangpu Wang Village Urban Redevelopment Project (actual image)

First mover of urban redevelopment to secure high-quality development

In 2009, Guangdong carried out pilot urban redevelopment projects for old cities, factories and villages ("three olds"). Cities including Guangzhou and Shenzhen have been requested to introduce industries while Guangzhou is required to include Global 500 companies in old village redevelopment projects in Zone 1&2. In 2021, "urban redevelopment" appeared in Government Work Report for the first time and was included in the 14th Five-Year Plan. In 2011, Aoyuan seized first-mover opportunities in urban redevelopment and has established multi-industry "Aoyuan Urban Redevelopment Model", contributing to enriching landbank and profit.

GBA urban redevelopment benchmark

Known as one of "Four GBA Dragons", Aoyuan has made early foray into urban redevelopment with abundant talents, experience & resources. Aoyuan is ranked among the "Top 8 China Real Estate Developers in Urban Redevelopment in 2021"

Aoyuan has over 70 urban redevelopment projects at different phases with planned total saleable resources of approx. RMB754.3bn,

of which RMB748.7bn are located in GBA, accounting for 99%. Urban redevelopment projects can not only enrich landbank, but also generate profit through primary and/or secondary development, as well as disposal of interest at project level, leading to stable profit margins and promising profit visibility

Estimated average GPM:35%-40%; NPM: 15%-20%

Accelerating conversion of urban redevelopment entering a profit-reaping period (cont.)

Urban redevelopment projects enrich landbank and bring better profit, laying a solid foundation for future development and helping to stabilize margins. Aoyuan's urban redevelopment projects — Guangzhou Aoyuan Panyu Nitrogen Fertilizer Plant and Zhuhai Xiangzhou Cuiwei Village are positioned as high-end "Residence Class" series. Both are expected to launch for presales in 3Q2021

Case study 1: Guangzhou Panyu Nitrogen Fertilizer Plant — Guangzhou Aoyuan Henderson The Residence Class

- Signed official cooperation agreement in Jan 2017; introduced Henderson Land into joint development in Apr 2018; won the bid in public land auction together with Henderson Land in Sep 2020 and entered secondary development phase
- Location: in Xinzao Town, Panyu, Guangzhou; close to Guangzhou Higher Education Mega Centre

奥园恒基·学苑壹号

THE RESIDENCE CLASS

- Total GFA: 300,000 sqm
- Avg. land cost: RMB22,280 per sqm
- Est. ASP: RMB48,000 per sqm

Est. saleable resources:

approx. RMB14.3bn

- Est. GPM / NPM: 35% / 15%
- Launch date: 3Q2021

Accelerating conversion of urban redevelopment entering a profit-reaping period (cont.)

۳Ħ

Located in Xiangzhou, Zhuhai, Cuiwei Village is only a 5-minute drive away from Zhuhai Aoyuan Plaza, an old factory redevelopment project. Cuiwei Village boasts 700 years of history and is one of the oldest and largest urban villages in Zhuhai.

In the redevelopment plan, Aoyuan has preserved some ancient structures, which not only inherits and protects the heritage of Cuiwei village but also incorporates tourism and commercial operation within the project, aligning interests of villagers, the government and the Company. Garnered "Plan/Concept Project Award" in "2020 GBA Urban Design Award", organized by the HKIUD and GBA Urban Designers Professional Association

tual image)

Case study 2: Zhuhai Xiangzhou Cuiwei Village — Zhuhai Aoyuan The Residence Class

- Signed official cooperation agreement in Aug 2016; started conversion in phases 1H2021 and entered secondary development phase
- Location: in the heart of Xiangzhou, Zhuhai; close to Mingzhu Station of inter-city railway, the largest urban village in Zhuhai
- Total GFA: 1,290,000 sqm
- Avg. land cost: RMB18,660 per sqm
- Est. ASP: RMB44,000 per sqm
- Est. saleable resources: approx. RMB24.1bn
- **Est. GPM / NPM:** 35% / 15%
- Launch date: 3Q2021

Mega URP projects contribute quality saleable resources of over RMB10bn each

In addition to the two major "The Residence Class" projects in Guangzhou and Zhuhai, multiple urban redevelopment projects in GBA are worth over RMB10bn of saleable resources and will be gradually converted into landbank, continuing to provide quality saleable resources and profits
